

Section: Narratives - Needs Assessment

Introduction

The findings of a recent study showed that there is a significant benefit to students who participate in out-of-school-time (OST) programs. In fact, the Return on Investment of Summer school Programs in Pennsylvania study determined that for every dollar invested in summer school programming for students there was a return of \$6.69 in potential benefits to students, including reduced rates for drop-outs, teen pregnancy, substance abuse, crime and delinquency ([Link PSAYDN.org](#)).

In accordance with the American Rescue Plan (ARP) Act and Pennsylvania Act 24 of 2021 (Act 24), the Pennsylvania Department of Education (PDE) will award approximately \$50,000,000 or one percent (1%) of Pennsylvania's ARP Elementary and Secondary School Education Relief (ESSER) State Reserve funds to support school districts, charter schools and cyber charter schools (collectively, LEAs) in the development and implementation of comprehensive after-school programs to address learning loss in response to the academic, social, emotional and mental health needs of students and subgroups of students impacted by COVID-19 public health emergency that supplement school programs and activities.

Act 24 requires that, when available, existing personnel shall be utilized by school districts, charter schools and cyber charter schools to staff programs and activities established with these grant funds.

Within 90 days of receipt of these allocations, school districts, charter schools and cyber charter schools must submit a three- part plan to PDE, that outlines the proposed use of the grant money, itemized by program and activity. This plan is part of a consolidated application that includes after-school programming, summer programming, and a comprehensive plan to address learning loss. The plan shall include:

- 1) A description of each program and activity
- 2) A narrative outlining the expected benefit of each program and activity
- 3) A budget for each program and activity detailing personnel and operating costs

PDE has developed the Accelerated Learning Toolkit, a significant cadre of resources and trainings, to support LEAs in the development of their plans. The Accelerated Learning Toolkit can be found [Link to Accelerated Learning Toolkit](#).

Section 1 - Needs Assessment: In this section, LEAs are asked to describe the impact of the pandemic on their students since March 2020.

Indicators of Impact

1. Describe how the LEA identified students for inclusion in a summer school program. Include a brief description of the indicators used in the decision-making process.

The leaders involved in this plan recognized two groups of students that were significantly impacted by the pandemic--our students identified as English learners and those students with special needs. The English learners had reduced opportunities to continue their language

acquisition as they had limited exposure to their English-speaking peers. Many remained at home during the pandemic and were surrounded by family members that communicated in a language other than English. This hindered their growth in language acquisition. Many of the students with special needs would have typically participated in extended school year experiences. However, some did not participate out of concern for health conditions or chose not to participate in the programs that were being offered. The availability of ESSER Set Aside funds has allowed us to think creatively to provide summer learning experiences for these two particular student groups.

Section: Narratives - Summer School Program Questions

Summer School Program Questions: In this section, LEAs are asked to describe the activities they have designed to provide summer school programming for their students.

- Identify the target student-group for the summer school program. Will the focus be on academic growth, social and emotional wellness, or some other factor to support student growth? For each group, provide specific strategies that were used or will be used to identify and measure impacts.

Student Group	Area of Focus	Number of Students Served	Provide specific strategies that were used or will be used to identify and measure impacts
Children with Disabilities	Academic Growth	60	Locally developed assessment and progress monitoring tools.
Children with Disabilities	Emotional Wellness	60	Anecdotal observations and conversations between students and staff.
English Learners	Academic Growth	10	Locally developed assessment and progress monitoring tools.

- Describe the evidence-based resources that will be used to support student growth during the summer school program.

There are several resources that will be available to assist staff in supporting academic growth. One of the facilities that is being considered for summer programming is Valley Youth House (VYH). This nearby organization has specific facilities that are designed to meet the needs of students with disabilities. VYH can provide an outdoor education curriculum for use with our students. Hamburg Area School District staff will also have access to resources provided by the district. This includes, but is not limited to, Wilson Reading and enVision math.

4. Describe the staff that will provide the summer school program (i.e., internal staff or outside resources).

Number of Staff Members	Internal/Outside Provider	Role
2	Outside Provider	Managers of Camp Facilities
20	Internal Provider	Program Developer, Group Leaders, and Assistants

a. The LEA assures it understands it is responsible to offer the work to its internal employees prior to engaging outside entities.

b. The LEA assures it understands it is responsible to ensure that all summer school program staff hold the appropriate certifications for the program that is being delivered.

5. How will the LEA assess the success of the summer school program? Please identify the tool, frequency of use, and expected results.

Tool Used to Evaluate Success	Frequency of Use	Expected Results
Progress Monitoring Data	Weekly	Meet or exceed progress goals.

6. How will the LEA engage families in the summer school program?

Information regarding summer learning opportunities will be provided both in print and digital formats to all families that qualify.

Section: Budget - Instruction Expenditures

Instruction Expenditures

Budget

\$35,906.00

Allocation

\$35,906.00

Budget Over(Under) Allocation

\$0.00

Budget Summary

Function	Object	Amount	Description
1100 - REGULAR PROGRAMS – ELEMENTARY / SECONDARY	100 - Salaries	\$20,000.00	Staff to develop and implement a summer learning experience
1200 - SPECIAL PROGRAMS – ELEMENTARY / SECONDARY	100 - Salaries	\$8,000.00	Staff to develop and implement a summer learning experience
1100 - REGULAR PROGRAMS – ELEMENTARY / SECONDARY	600 - Supplies	\$5,000.00	Supplies for summer learning experience
1200 - SPECIAL PROGRAMS – ELEMENTARY / SECONDARY	600 - Supplies	\$2,906.00	Supplies for summer learning experience
		\$35,906.00
